**A NEW CONCEPT, IN FAVOR OF INNOVATION TO IMPROVE PRODUCTIVITY
AND REDUCE IMPACTS ON THE ENVIRONMENT**

Our products were designed to meet: industry, agribusiness, commerce or residence. For that, we count with a technical team of specialists in highly resistant photovoltaic systems, to help in consulting and choosing the best solutions according to project need. In this way, providing your optimization design, sustainability, environment-friendly economy and energy. according to the necessity A new concept, in favor of innovation to improve produce and reduce impacts caused to the environment.

OUR SERVICES

Logistics & Services

To be able to reduce risk to our customers and supply and end-to-end product that addresses the supply chain, Consultec Logistics and Services Lda was established, with a fleet of 10 vehicles equipped to truck both heavy and light loads of all sorts.

Consultec is the arm of SKM that is specialized in road logistics, with a solid footprint in Mozambique and South Africa, currently expanding through the Southern African region. Our motto is safety, efficiency and quality. We have evolved the way of transporting, ensuring in a substantial reduction of operating costs to all business segments through tailor-made solutions that address the total cost of owner.

We value Safety, Ethics and corporate governance, equality and integrity. Our goal is to be the premier partner in the industry that we cater for and we strive to make a difference in the socio-economic living of our communities, through women empowerment, Corporate Social Responsibility and upskilling and training the community.
